

ARUN PRASANTH M

Front-end Developer

Software Developer with 2+ years of experience building enterprise web applications using React.js, JavaScript, and TypeScript. Experienced in developing responsive user interfaces, integrating REST APIs, and managing application state with Redux and TanStack Query. Expanding backend capabilities with Node.js, Express.js, TypeORM, and MS SQL to build scalable end-to-end solutions. Looking forward to contributing to impactful products while growing as a developer.

EXPERIENCE

Professional Experience: 5+ Years | Software Development Experience: 2+ Years

Sellcraft Global Solutions Pvt Ltd(Payroll) , Bangalore.

Front-end Developer

Sept 2025 - Present

Client: Tata Consultancy Services (TCS) | Client Location: UIDAI Technology Center
Backoffice Portal Development

- Developing and maintaining frontend features using React.js, Redux, SCSS, and TanStack Query.
- Managing server state with TanStack Query including caching, background refetching, and efficient API synchronization.
- Integrating backend services using REST APIs with Axios and implementing structured error handling.
- Building reusable UI components and dynamic forms for administrative workflows.
- Optimizing performance by reducing redundant API calls and improving query key management.
- Collaborating with backend teams to ensure smooth API integration and feature delivery.
- Using Gitea and Bitbucket for version control, participating in code reviews, and following enterprise SDLC practices.
- Supporting build and deployment processes through Jenkins pipelines and ArgoCD for CI/CD and release management.

SaveData Infotech Solutions, Coimbatore.

Full Stack Developer

Nov 2023 - Apr 2025

Developed a Web Application

- Built and maintained features using React, Angular, TypeScript, HTML, and CSS.
- Implemented backend services with Node.js, Express.js, and TypeORM for data management.
- Integrated REST APIs to ensure smooth communication between the frontend and backend.
- Collaborated with the team to optimize application performance and resolve technical issues.

Designed and Developed a Static Website

- Created a responsive, user-friendly website using HTML, CSS, React, Angular, Tailwind CSS, and TypeScript.
- Focused on clean design principles and ensured cross-browser compatibility.
- Worked closely with designers to translate UI/UX concepts into functional and visually appealing components.

Deccan i Services Pvt Lmted, Coimbatore.

Financial processor

jun 2019 - jun 2022

- I have three years of experience in US Mortgages. Gathered and organized all relevant credit and guarantee information required to document mortgage loan files for a suitable product type.
- Reviewed paperwork ensures 100% accuracy and completeness of loan applications.
- Evaluated all approved mortgage loans and managed closing for private mortgage insurance.
- I have good knowledge and techniques regarding the Lead process. Generate new innovative ideas to reduce time utilization.
- Attends seminars for developing the process knowledge and clearing doubts to co-workers.

Projects

Backoffice (Enterprise Web Application)

A secure internal administrative portal developed for **Unique Identification Authority of India (UIDAI)** to manage inactive and invalid Aadhaar records.

- Built scalable frontend modules using React.js, Redux, SCSS, and TanStack Query.
- Implemented efficient server-state management with caching and optimized data fetching.
- Developed data management interfaces and dynamic form workflows for administrative users.
- Integrated REST APIs using Axios for seamless data operations.
- Ensured responsive UI and smooth user experience for internal users.

SecureVault (Finance Web Application)

- Built a responsive front end using Angular and developed REST APIs with Node.js and Express.js.
- Integrated TypeORM with MySQL for secure data management.
- Deployed on AWS (EC2, S3, RDS) ensuring scalability and reliability.
- Optimized performance, security, and overall application stability through testing and debugging.

NethiExportsAndImports, WatAGTechnologies, SecureVault and PupilNest (Static Websites)

- **Responsive Websites:** Built multiple websites using Angular, React and Tailwind CSS, ensuring seamless functionality across desktop, tablet, and mobile devices.
- **Dynamic UI Components:** Crafted and implemented reusable, responsive components to enhance user experience and maintain consistency across pages.
- **Cross-Browser Compatibility:** Ensured optimal performance and uniformity across modern web browsers using responsive design principles and rigorous testing.
