EXPERIENCE

Roles & Responsibilities

Deccan i Services Pvt Lmtd	I have three years of experience in US Mortgages. Gathered and organized all relevant credit and guarantee information required to document mortgage loan files for a suitable product type. Reviewed paperwork ensures 100% accuracy and completeness of loan applications. Evaluated all approved mortgage loans and managed closing for private mortgage insurance. I have good knowledge and techniques regarding the Lead process. Generate new innovative ideas to reduce time utilization. Attends seminars for developing the process knowledge and clearing doubts to co-workers.
Financial processor	
jun 2019 - jun 2022	
FrontEnd Developer	I am a self-taught front-end developer. I didn't have any experience in this role. I learnt more skills for this role. I will do day-to-day coding and learn new things and which are uploaded to the Github account to review errors and new updates regularly.
jul 2022 - present	

Project

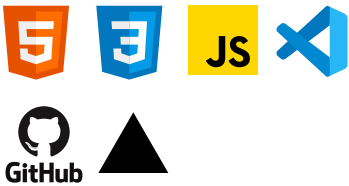

AP’s Personal Site

arunprasanth.vercel.app - use this link to view my personal site.

This portfolio site is my first project. I set out to build a portfolio site three months into learning how to code. I wanted to develop something which could grow with me as a developer; accommodate new projects, hobbies, technologies and ideas. While also showcasing my current ability and attention to detail. I have a long list of things I want to build and add to the site, but I hope you enjoy this site in its current format.
